Verification of .BE domain names

Administration · https://kyzoe.be/en/docs/verification-of-be-domain-names/

Verification of .BE domain names

You may now receive a **verification message for your .BE domain name**. This message comes from **DNS Belgium** (dns.be), the official registry for Belgian domain names.

This email asks you to confirm whether the **contact details for your domain name are still up to date**.

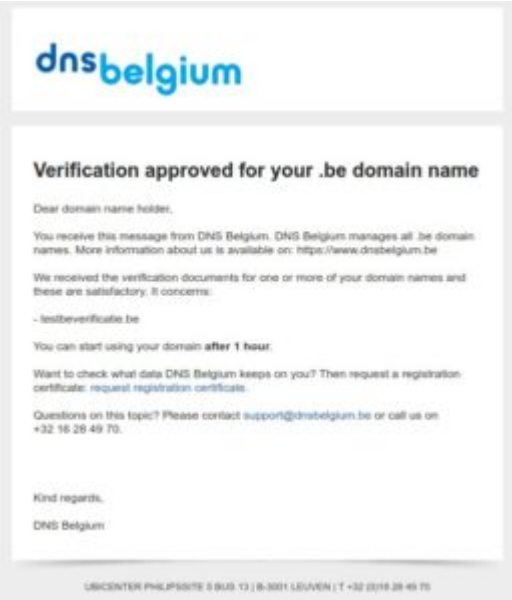

What do you need to do?

- Open the email from dns.be.
- Click the **‘Verify your details’** link.
- Check the details:
  - Are all the details correct? Then you don't need to do anything.
  - Do any details need to be changed? You can easily update them via your **Kyzoe client area**

More information:

You can find detailed information about this verification procedure on the DNS Belgium website: https://www.dnsbelgium.be/nl/registrant-verification

Example of a verification email

dnsbelgium

Verification approved for your .be domain name

Dear domain name holder,
